**Subject:** Warriner well & Dimock

Jeannine,

Went back and reviewed the package. The citizen notes that PADEP cannot confirm that this well is being permitted. Also went online to see distance between Elk Lake and Dimock: 3.5 miles. The lake could possibly be within the township boundaries, but even if it is we don't know the well will actually be drilled so it would all be speculation. I played it safe and borrowed the citizen's language, i.e. that the well is to proceed beneath the Lake.

If we need more footwork on this, I could ask PADEP if they have since permitted the well and get the details on it's location. We're keeping in touch with them on another control already, so it's not a big deal.

Angela
